Hampton Inn Warsaw Indiana Located in the Center of the Billion Dollar Orthopedic Industry

E. Lansing, MI/Warsaw, IN (April 27, 2011) – When HRC Hotels, LLC selected Warsaw, IN to build their Hampton Inn in 2006, they knew that they wanted to be in the center of the orthopedic capital of the world.

According to *Inside Indiana Business*, a report recently produced by the Indiana Business Research center at Indiana University says that the orthopedic industry cluster in Kosciusko County in north central Indiana, had a total economic impact of \$3.7 billion in 2009 and is continuing to grow.

The combined efforts of the orthopedic industry generated 13,000 jobs in Kosciusko County, which accounts for 43 percent of the county's employment. Statewide, the industry's total employment footprint is 16,700 jobs.

The study found that the county's orthopedics industry in 2009 generated an estimated \$2.4 billion in direct output- the economic concept for the value of local production only. The total value of orthopedic industry sales generated from Warsaw-based companies was approximately \$11 billion in 2009.

"We were questioned as to why we would build a hotel in a city that has a population of only 10,000 people", states Terry Hall, CEO of HRC Hotels, LLC. "Our hotel has seen an extremely high RevPAR of \$65.50 since our opening 4 years ago and we significantly out-perform all competition. This recent report confirms that we made the right decision."

Opened in 2007, the Hampton Inn features 82-guestrooms, an indoor pool, fitness center, meeting room, business center, breakfast, complimentary wireless internet access and self-parking.
